

## Record for Campaign Voluntary Measures – cropping year 2011/12

You can record your voluntary measures in this short form to help support the Campaign for the Farmed Environment. Your information will form part of a database on voluntary measures which will demonstrate to Government the amount of voluntary environmental management and environmental benefits that are delivered on farms in England. NB: Defra will be sending out the 2012 survey in February that will still need to be completed.

### Q1. About you and your holding/farm

Name:

Address:

What is the size of your holding/farm in hectares? Area (ha)

Q2. Are you currently in an agri-environment scheme?	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
Entry Level Stewardship (ELS)	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
Organic Level Stewardship (OELS)	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
Higher Level Stewardship (HLS)	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
Classic Scheme (CSS/ESA)	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>

### Q3. If you have renewed your ELS agreement, did you use a third of your points on the key target options that support the Campaign?

Yes  No  Not applicable

### Q4. What area of former permanent set aside are you managing under ELS or HLS grassland management options?

Area (ha)

**Your participation in an agri-environment scheme and the uptake of key target options that you have within the agreement are monitored by Natural England and are provided to the Campaign on a monthly basis. Therefore, we need no further information on these schemes.**

### Q5. Have you retained any uncropped land or left any cultivatable land out of production?

This includes rotational fallow land, game covers and GAEC 12 land.

Yes  No  Area (ha)

**Q6. Which Campaign voluntary measures are you managing on your farm in accordance with the essential requirements/red box requirements detailed in the ‘Farmer guide to voluntary measures’ and outside of a paid agri-environment scheme option? (You might have an agri-environmental agreement which covers your whole farm but we are interested in any action that you are taking beyond this agreement, and for which you are not receiving payment)**

Campaign voluntary measures		Total Area (ha)
C1	Grass buffers alongside temporary and permanent water courses	
C2	Grass areas to prevent erosion and run-off	
C3a	Reverted arable areas	
C3b	Reverted arable areas with scrub management	
C4	Skylark plots	No. of plots:
C5	Fallow plots	
C6	Overwintered stubble followed by spring / summer fallow	
C7a	Overwintered stubbles	
C7b	Overwintered stubbles – optional for vulnerable soils	
C8	Uncropped, cultivated margins (not GAEC 14 margins)	
C9	Wild bird seed mixture (arable / grassland areas)	
C10	Game strips	
C11	Game and Wildlife Conservation Trust Un-harvested cereal headlands	
C12a	Pollen and nectar mixtures – arable / grassland areas	
C12b	Pollen and nectar mixtures – management for horticultural growers	
C13	Sown wildflower headlands	
C14	Selective use of spring herbicides	
C15	Enhanced management of Short Rotation Coppice (SRC) (willow or poplar only – not miscanthus)	

**Q7. Are you undertaking any other voluntary environmental management on your holding/farm which you do not receive payment for and is not a Campaign voluntary measure? (Please list but note that this activity does not count towards the Campaign).**
